

**Amendments to the Specification:**

Please replace the Abstract, paragraph at page 11, lines 4-12 with the following amended paragraph, marked to show the changes made:

~~A cold cathode fluorescent flat lamp is disclosed.~~ The cold cathode fluorescent flat lamp includes an enclosure chamber sealed by two reciprocally parallel plates of glass and containing a gas therein, an anode and a cathode disposed in the enclosure chamber, wherein the cathode is parallel to the anode, an auxiliary anode disposed between the anode and the cathode and being parallel to the cathode, wherein the auxiliary anode is attached to a surface of either plates of glass, and a printed circuit board for providing a voltage for the anode and the cathode.
